EXPERIENCE

NEWT GLOBAL | SOFTWARE DEVELOPER

Oct. 2023 – Present | Chennai, India

DATABASE MODERNIZATION ACCELERATION PLATFORM (DMAP)

- Architected automated Java Spring Boot platform for Oracle-to-PostgreSQL migrations using query transformation and AI-powered RAG workflows, processing 500 GB+ of data daily
- Increased migration throughput by 50% and reduced manual intervention by 80%, saving 200+ person-hours per month

ORACLE-TO-ORACLE MULTI-CLOUD MIGRATION SUITE

- Built a unified migration framework for 120+ Oracle instances across Azure and GCP, automating schema conversion and data replication
- Achieved zero-downtime transitions with failover orchestration and cut migration costs by 30%, saving \$1.2 M annually

MICROSERVICES MIGRATION TO AZURE KUBERNETES SERVICE (AKS)

- Transformed 18 legacy monoliths into Dockerized microservices on AKS, implementing Helm charts and Istio service mesh
- Delivered 99.9% uptime for 50 K+ daily users and reduced operational costs by 30% (\$250 K/year)

TERRAFORM MULTI-CLOUD PROVISIONING

- Developed reusable Terraform modules for Azure, GCP, and AWS, provisioning 100+ environments with policy-as-code controls
- Reduced environment configuration time by 90% and enforced 99.5% parity across development, staging, and production

CLIENT PROJECTS

LANDING ZONE DEPLOYMENT WITH TERRAFORM

- Engineered Terraform landing zones across Azure, GCP, and AWS, provisioning each in <5 minutes
- Enforced security best practices and cut configuration drift by 90%, supporting 200+ deployments weekly

KEY ACHIEVEMENTS

WIPRO AVIATION – ORACLE TO POSTGRESQL MIGRATION

- Accomplished application refactoring and data migration for 30+ modules from Oracle to GCP PostgreSQL using Flyway
- Automated CI/CD pipelines and delivered zero-downtime migration with a 35% performance boost, improving query speed by 45%
